SUMMARY

I am an organized and hardworking professional who thrives in dynamic and energetic environments. I excel at tackling challenges and embracing new experiences, always bringing focus, dedication, and a results-driven mindset to my work. Passionate about teamwork and problem-solving, I aim to make a positive impact in every role. In my free time, I like to unwind by watching series or movies, and I find joy in dancing, listening to music, and spending quality moments with family and friends to lift my spirits. To stay energized and motivated, I enjoy dedicating time to the gym.

EXPERIENCE

Software Developer Portals – Office 365 & SharePoint

Devscope   **August 2024 — Present**

· Developed Canvas Apps to manage and update data dynamically.
· Built and structured Dataverse tables to support data storage and relationships.
· Implemented search functionality with advanced filtering capabilities.
· Created and managed document libraries to organize and store relevant data.
· Automated workflows using Power Automate.
· Designed reusable and efficient components to streamline development and maintenance.

Intern

Vivify – Digital Solutions   **June 2020 – July 2020**
